

## *We are pleased to introduce our high pressure cleaner series.*

**Our high pressure series has an assortment of machines according to various uses. The high pressure machine's function is classified in two ways.**

**1** The first function is washing away dirt from surfaces of machines or walls etc.; for example automobiles, agricultural machines, walls of buildings, floors of stockyards etc. You can also choose jet shapes between a straight spray or a fan shape spray. The straight spray is an effective way of washing away obstinate dirt with greater force. The fan shape spray is suitable for larger areas.

**2** The second function is pipe cleaning. On some machines, the gun can be exchanged for a pipe cleaning hose. The pipe cleaning hose can run inside the pipe and wash away accumulated dirt with the impulse of jetting water.

**3** Additionally, we have a Hot Water cleaner series and a Low Noise series. The Hot Water series is best for cleaning oily dirt. The Low Noise series can be used at night-time or in residential areas.

## Electric Type High Pressure Cleaner 440

Code No. EP44H

Model	High Pressure Cleaner 440
Pressure	40kgf / cm <sup>2</sup>
Discharge volume	3.7L / min
Motor	220V-240V 1Ph 200W

## Electric Type Hot Water Cleaner 15/100H

Code No. HD1510H

Model	Hot Water Cleaner 15/100H
Pressure	102kgf / cm <sup>2</sup>
Discharge volume	15.0L / min
Motor	200V 3Ph 3.7kW

## Engine Driven Type High Pressure Cleaner 10/100G

Code No. HD1010G

Model	High Pressure Cleaner 10/100G
Pipe cleaning capacity	~ φ 110 mm
Pressure	102kgf / cm <sup>2</sup>
Discharge volume	10.0 L / min

## Engine Driven Type High Pressure Cleaner 12/80G

Code No. HD128

Model	High Pressure Cleaner 12/80G
Pipe cleaning capacity	~ φ 110 mm
Pressure	80kgf / cm <sup>2</sup>
Discharge volume	12.0 L / min

## Engine Driven Type High Pressure Cleaner 13/150G

Code No. HD1315G

Model	High Pressure Cleaner 13/150G
Pipe cleaning capacity	~ φ 110 mm
Pressure	150kgf / cm <sup>2</sup>
Discharge volume	13.0 L / min

## Low Noise High Pressure Cleaner 30/100GS

Code No. HD3010S2

Model	High Pressure Cleaner 30/100GS
Pipe cleaning capacity	~ φ 250mm
Pressure	102kgf / cm <sup>2</sup>
Discharge volume	30.0 L / min
